CORN PRODUCTS

114 RM CONVENTIONAL, VT2PRO RIB

A strong new hybrid with multi-year test plot data and field results showing it to be one of the best in the industry.

This is a solid improvement in this maturity. It has improved stalks, roots, health, and best of all yield. Knowing the genetics that went in to create this line we expect a sturdy, high yielding line that will be around for some time.

- Solid multi-year performance leading to high confidence in this line
- Very strong roots and stalks

GH1413

- Accomplished genetic background on this line makes us excited about it
- Attractive late season intactness

PLANT ATTRIBUTES

TEST WEIGHT	Good
KERNAL ROWS	18-20
STAY GREEN	Very Good
POPULATION TOLERANCE	Med
EARLY PLANT VIGOR	Very Good
EARLY PLANT VIGOR	Very Good

HEALTH ATTRIBUTES

DROUGHT TOLERANCE	Very Good
GRAY LEAF SPOT	Good
SOUTHERN LEAF BLIGHT	Very Good
GOSS'S WILT	Good
COMMON RUST	Very Good
SOUTHERN RUST	Good
STALK ANTHRACNOSE	Excellent
TAR SPOT	Good

IDEAL PLACEMENT

GH1413 is one of the rare lines that rises to the top in both low and high productivity fields. It will shine in any field.

NOTES

Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, including applicable refuge requirements for insect resistance management, for the biotechnology traits expressed in the seed as set forth in the Technology/Stewardship Agreement that you sign.

By opening and using a bag of seed, you are reaffirming your obligation and agreement to comply with the most recent stewardship requirements.

Bayer is a member of Excellence Through Stewardship® (ETS). Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all applicable regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS.

B.t. products may not yet be registered in all states. Check with your seed brand representative for the registration status in your state.

Refuge seed may not always contain the DroughtGard® trait. IMPORTANT IRM INFORMATION: Certain products are sold as RIB Complete[®] corn blend products, and do not require the planting of a structured refuge except in the Cotton-Growing Area where corn earworm is a significant pest. Products sold without refuge in the bag (non-RIB Complete) require the planting of a structured refuge. See the IRM/Grower Guide for additional information. Always read and follow IRM requirements.

Roundup Ready® Technology contains genes that confer tolerance to glyphosate. Roundup Ready® 2 Technology contains genes that confer tolerance to glyphosate. Plants that are not tolerant to glyphosate may be damaged or killed if exposed to those herbicides. Insect control technology provided by Vip3A is utilized under license from Syngenta Crop Protection AG. Herculex® is a registered trademark of Dow AgroSciences LLC. Agrisure Viptera® is a registered trademark of a Syngenta group company. Respect the Refuge and Corn Design® and Respect the Refuge® are registered trademarks of National Corn Growers Association. Acceleron®, DroughtGard®, RIB Complete®, Roundup Ready 2 Technology and Design[®], Roundup Ready[®], SmartStax[®], Trecepta[®], VT Double PRO[®], and VT4PRO[™] are trademarks of Bayer Group
